3.2 Open Tender of Mini Mart Operations

I trust this letter will reach you well. I am writing this regarding the lease proposal in the tender submission for the Yew Mei Green Mini Mart, 01-37, Blk 54 that we recently received. After Careful consideration and the recent news in Strait Times on 10-Jan-2026 article "Bidders for HDB shops must commit to tendered rent over 6 years instead of 3": "*the successful bidders for HDB shops have to commit to their tendered rent over two tenancy terms – as total of six years – instead of one three-year term*"

In light of our counteroffer, we propose the following adjustments, believing these terms better reflect the property's market value and condition, along with consideration for serving the residence of our estate in Yew Mei Green Condominium.

- Monthly Rent: $1450.00 (as per our tender form) + GST
- Lease Term: 6 years (3 years each term)
- Security Deposit: $2900 (2 x month rent)
- Maintenance Responsibility: As per the rental agreement

We genuinely believe that our proposal offers a thoughtful balance of benefits and cost for both the parties involved. Should you have any questions or wish to discuss the above-mentioned terms further, I am more than willing to meet at your earliest convenience. I look forward to hearing from you soon.

With Regards,

Hope for your understanding.

8.2 Dispute Case with Unit #11-03

Regarding the feedback from Unit #11-03 concerning paint stains on the window frame ledge, the project consultant, Apex, has investigated the matter and met with the unit owner on 16 Jan 2026.

As standard cleaning methods were found to be ineffective in removing the stains, the only viable solution is to paint over the affected area.

Nippon has provided several color options for consideration, and the owner has selected **BS 14C35 (Rayon),** which is the closest match to the existing surface.

As the affected area is common area, we still need Council's confirmation before proceed.

11.4 Appeal from Unit #13-26

We note Management's reference to the estate handbook. However, we would like to clarify that the handbook was never received by us. In the absence of receipt or acknowledgement, it would be difficult for residents to be aware of specific disposal requirements contained within the handbook. We would appreciate clarification on how and when the handbook was issued, and whether there is any record of its distribution to this unit.

With regard to the warning signage shown in your email, we note that the sign is installed on the opposite side of the bin area, and not at the location where the item was placed. As such, the signage was not visible or reasonably apparent at the point of disposal. This limits its effectiveness as a clear and practical notice to residents using that area.

Further, having reviewed the handbook content provided, we note that it does not define the size, dimensions, or criteria by which an item is considered a "bulky item." Similarly, the National Environment Agency (NEA) website provides examples of bulky items such as furniture and large household appliances, but does not classify smaller items such as boxes, nor does it define bulky items by material or dimensions.

To be clear, payment of the fine is not the issue. The concern is that the applicable rule was not sufficiently informed, visible, or clearly defined at the time of disposal.

In view of the above, we respectfully request that the $300 fine be withdrawn, or alternatively reviewed in light of the lack of clear communication and definition.
